

It's the Law!

*Despite MCGEO's rhetoric,
here is the law that guarantees your contract when you change unions:*

County Collective Bargaining Law 33-106 (5)

If a different employee organization is certified as a result of an election carried out under subsection (b)8, that organization must be treated in all regards as a successor in interest and party to any collective bargaining agreement that the previous employee organization was party to.

**It's time you had a union
that knows the laws that protect your rights!**

**National Correctional Employees Union,
United Public Service Employees Union**
